The Tornado USB Memory Watch (UMW) is the easy way to store, transfer and carry your personal files.

The Tornado UMW is a portable storage device built into a stylish designed wristwatch. This portable device can store personal computer data files, image files e.g. photo, video- and audio files without using floppy discs or CDs. Whether you're at home, at work, or on the road, the Tornado UMW gives you instant access to your files. With the USB cable, it can be plugged directly in every industry-standard USB 1.1 port that is built into desktop PCs, notebooks or PDA.

The Tornado UMW is available with 64, 128 or 256 MB memory.
