

TORNADO ISDN

## Internal ISDN PCI Card TORNADO Tipa-P

The Tipa-P is designed to meet the ISDN demands from Internet access, remote LAN access, telecommuting and video conferencing with high performance and superior quality. The smart Tipa-P supports V.110, V.120, PPP and MultiLink PPP. Additionally, the Tipa-P supports CAPI 2.0.

The internal ISDN PCI-card is ideal for both Internet and telebanking and its integral communication software means the Tipa-P is fax-enabled. The Tipa-P comes with an English installation guide and is available at a killer-price.
